

## What's happening in tech? #11: 23/08/2024

### Today's prominence

- **Debian Linux First Released (1993):** On August 23, 1993, the Debian Project announced its first release of Debian Linux. Debian is one of the oldest and most influential Linux distributions, and it has served as the foundation for many other distributions, including Ubuntu.
- **Microsoft Announces the Acquisition of Navision (2002):** On August 23, 2002, Microsoft completed its acquisition of Navision, a Danish software company. This acquisition was a significant step in building what would become Microsoft Dynamics, a suite of enterprise resource planning (ERP) and customer relationship management (CRM) software applications.

### Web Development:

#### 1. The reality of AI-centric coding
